 **FERROUS**
METAL PROCESSING CO.

A better bottom line for you.

The Profit Prophet has a vision: Waste less, profit more by working with Ferrous.

Everyday you look for ways to squeeze more profit from your operations.

Let Ferrous enlighten you: use one processor (yes, Ferrous), waste less, profit more.

As Cleveland's only one-stop, full service processing source, Ferrous can help you reduce wasted time and money from one end of your processing chain to the other. You'll get peace of mind and greater profits too. Here's how we do it:

Prophecy # 1: He who multiple processes at Ferrous, profits most.

Roll. Pickle. Slit. Level. Shear. Decamber. Warehouse. Ferrous does it all, all in one place. In the time it takes to make one phone call, you can have us doing all the work while you eliminate extra shipping costs, reduce paperwork and administrative hassles, cut delivery time to your customers, come out ahead of your competition—all while chalking up higher profits.

Prophecy #2: He who uses Ferrous will maximize supply chain management, improve profits.

Send your coils to Ferrous and we'll put them in a nice safe place until you need them. You make one phone call and we'll pull them, process them and, using our own truck fleet, deliver the finished material JIT.

Prophecy #3: He who uses Ferrous' 4-high, 60" combination reversing mill will get cold rolled quality at hot rolled prices.

Looking for greater yields, greater cost savings, happier customers? Look no further than Ferrous' new combination reversing mill. The only one of its kind in the country, this behemoth will give you perfect gauge with tolerances held to an incredible $\pm .0005"$. You'll also get perfect shape, surface and temper too. Guaranteed higher yields, more parts per pound and more production savings are just a few of the benefits you'll experience.

Prophecy # 4: Greater profits are only a phone call away.

Call us at 1-800-671-8655/216-671-6161. We'll show you exactly how much time and money you can save by sending all your processing to Ferrous.
