

PROCESSING NIRVANA IS HERE!

KEEPING INVENTORY IN YOUR WAREHOUSE STINKS.

What do visiting relatives, fish and processed steel have in common? They all begin to stink after a while. Especially the steel because it can wreck havoc with your ability to manage your balance sheet. And that really stinks.

Send your steel to Ferrous. We'll warehouse it until you need it. Then, make one quick phone call to us. We'll pull your steel, process it to perfection and deliver the finished material where and when you need it.

No hassles. No wasted opportunities. No extra shipping costs.
